DEFENCE & AEROSPACE

DAREYE® sees who is watching you

A new intelligence capability for operational security.
DAREYE® provides the crucial understanding of when your assets are observed from space.

Analysing the True Intent of Unseen SAR Signals

DAREYE® constantly monitors the sky from the ground. By detecting and measuring adversary SAR satellite signals, it reveals exactly what the enemy is observing and how.

- Detect SAR satellite signals
- Reveal what the adversary sees
- Understand observation patterns
- Build intelligence from observations

KEY BENEFITS

- Helps you protect your critical assets.
- Detects whether your asset was tracked or searched for.
- Warns when surprise element is compromised.
- Improved situational awareness.

DAREYE® can be used in many ways.

Fixed
Continuous monitoring mode to protect permanent locations and training grounds.

Mobile
Tactical surveillance supporting operational units and battle groups on tripods or integrated into vehicles.

A passive ground-based device designed to estimate surveillance threats and enhance operational security in demanding environments, from arctic to desert.

Patent PCT/FI2026/050333

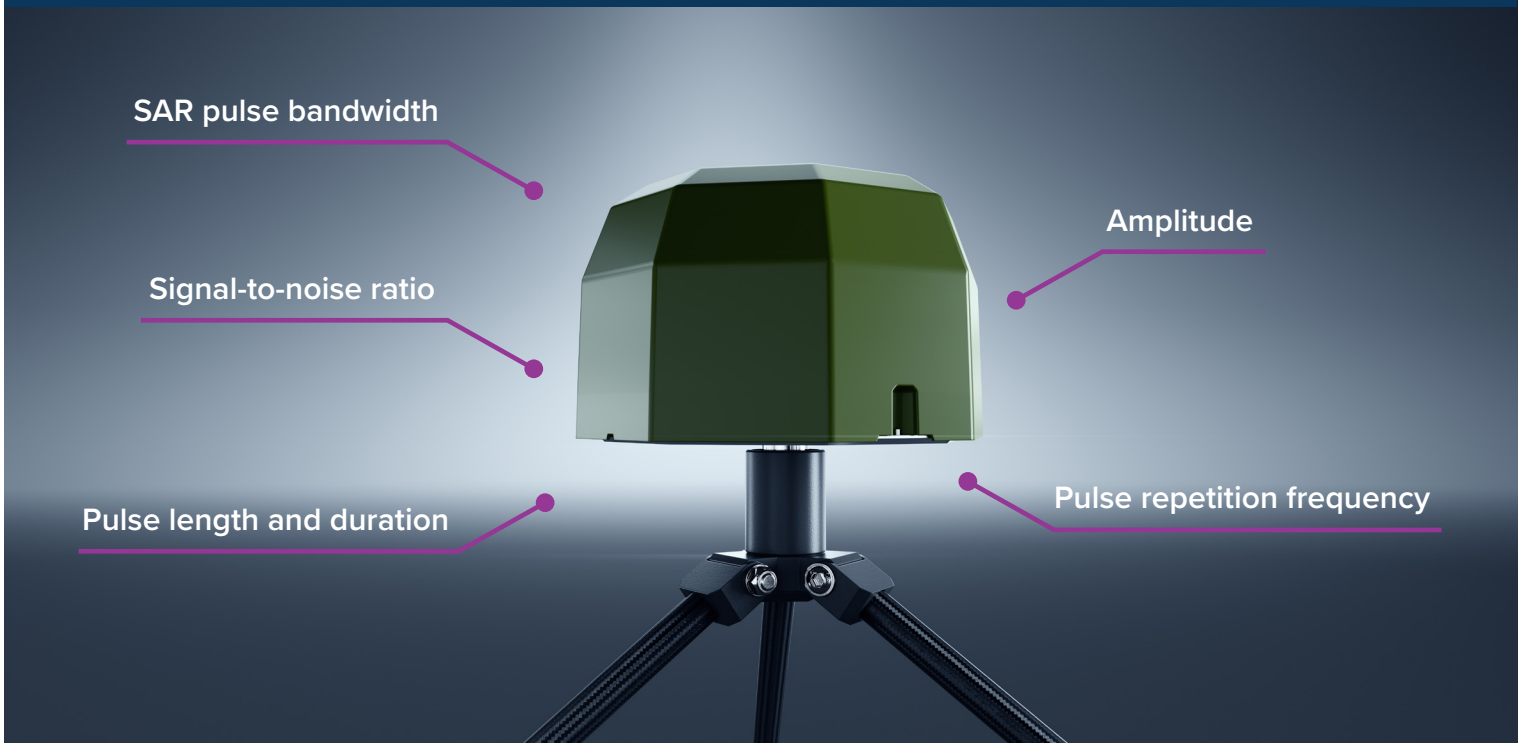
DAREYE®

Comprehensive Analysis of Key SAR Signal Parameters



Why DA-Group?

Trusted Partner in Space and Defence Solutions

With over 25 years of experience in critical defence and space projects, DA-Group leverages extensive expertise in RF, microwave, and space technologies. We provide interference-resistant positioning and advanced situational awareness solutions for civil and security applications, meeting the highest quality and military standards.

Nordic Technology

DAREYE®, designed and manufactured in Finland, represents bold Nordic thinking, where ingenuity meets the most demanding conditions.

Beyond the Ordinary

DA-Group delivers mission-critical technology, reliable electronics, and high-tech solutions for defence, aerospace, and demanding industrial applications worldwide.
